

Lec 22

L0 Constituency Displacement (Not finite state)

L1 PS rules → Merge
Transformations → Move → Remerge/Agree → newer development
Probe-goal/target arrangement

Back to the Future paper → L2 Mayan data

L4 Null: deri feature crash, etc derivational time-bomb theory
Chomsky's interfaces ...
↓ doesn't explain data

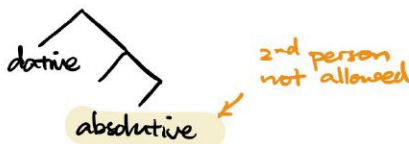

L4 Preminger theory
No derivational time bomb
✓ explains data

L2 Yakut data

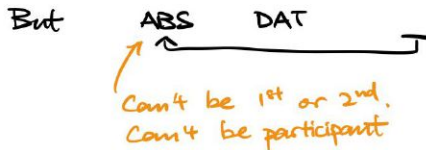

Probe-goal arrangement

[see paper]

Applicative unaccusative - two internal arguments. Basque:

Canonical: DAT ABS

Preminger: there are two types of probes here:
#° number probe
π° participant probe?

Theory:
